Middlesbrough
College

Middlesbrough College is thrilled to announce that it has been selected by the Department for Education to be a partner college in the North East Institute of Technology (NEIoT). As part of a regional consortium, Middlesbrough College will be the sole deliverer of IoT accredited courses in the Tees Valley.

Having the prestigious Institute of Technology status gives the promise to our students and employers that we will deliver high-quality technical qualifications and bespoke training to provide a route for people of all ages and existing employees to gain industry specific skills.

Why choose Middlesbrough College

1. Our courses are awarded by internationally recognised education brands including The Open University and Pearson UK Ltd
2. We are proud to be rated TEF Gold for our teaching and job outcomes
3. Our courses have been written in close consultation with employers

4. Many of our technical courses are IoT accredited, a prestigious accolade recognised by industry
5. Benefit from courses where you can step in and out of education dependent on your circumstances and still receive a full qualification
6. Flexible delivery includes evening classes, full or part time day options
7. We offer competitively priced higher education courses and studying locally allows you to save on travel and accommodation expenses
8. Courses benefit from small classes, dedicated 1:1 tutor support and full access to our digital learning platforms for homeworking
9. Higher Education Student Loans available and bursaries on selected courses
10. Dedicated HE Centre opening in August 2021

Travel, Tourism and Aviation

FD Airport and Airline Management

FD Travel and Tourism

BA (Hons) Tourism Management [Top-up]

BA (Hons) Airline and Airport Passenger Management [Top-up]

New for 2021 – Expansion of our technical training centre

Our £20m STEM Engineering Centre is a unique and inspirational space, allowing students to learn new skills in a simulated industrial site and gain vital competencies required by the sector.

Due for completion in August 2021, the centre will be expanded to include a dedicated higher educational environment in a technical setting. It will feature a bespoke university level study area, classrooms and tutorial zones, with easy access to the technical and specialist equipment and facilities required for a range of technical courses.

Apply now!

Please apply directly to us at www.mbro.ac.uk. Our team will then make contact with you on your next steps.
