

English Language

Welcome back to A Level English Language!

English Language offers you the opportunity to engage critically and creatively with a wide range of texts and discourses. The course explores the study of English Language beyond the page, both as a medium of communication and a way of explaining our world and the representations within it.

In your first term, you will deepen the critical skills you learned in year one, exploring the development of the English Language. You will journey across the globe, looking at how English came to be the world's lingua franca, and how representations of this are changing. We will also explore how we, as children, learned to speak and write, and the possible factors that support this development. You will complete the second coursework task, the language investigation, an opportunity for you to collect and analyse your own data on a linguistic topic of your choosing.

Exams :

- Paper 1: Language, the individual and society
Monday 10th May 2027 AM
- Paper 2: Language varieties
Monday 17th May 2027 AM

 - Language investigation (2000 words)
- Deadline for submission:**
Thursday December 17th

Student Success

Luke

Film Studies - A*
English Language - A
English Literature - B

"I'm really pleased with how things have worked out. I chose a mix of A Levels that appealed to me, but also subjects I felt I was good at and had a fighting chance of building a career after college."

"All my teachers were fantastic, and that really helped me. I think the willingness of my teachers to support and understand me was probably the most important thing. That support made it feel like the best path for me."
