

A Level Law Year 2

Welcome to A Level Law

Over the next 9 months we will consider aspects of the criminal law looking at a range of offences such as murder, theft and robbery and some defences such as insanity and self defence. We will then move onto contract law looking at what makes a valid contract and what happens when a contract is broken. We finish the year by examining the relationship between law and morality and whether the legal system achieves justice.

Specification

We follow the AQA specification, you can find details of what we study and past paper questions by following the QR code.
