

A-Level Mathematics

Welcome to MC Sixth Form and congratulations on choosing A Level Maths!

At MC6, you'll embark on an exciting journey that will challenge your problem-solving skills, deepen your understanding of mathematical concepts, and unlock new ways of thinking.

We believe in creating a dynamic and engaging learning environment that will help you excel, not only in your studies but in your future academic and career endeavours.

Get ready to explore the fascinating world of mathematics with Debbie & Tom and make the most of your time at MC6!

The Edexcel A Level Maths course is designed to build on the mathematical concepts you learned at GCSE and introduce more advanced topics. The course is divided into three main areas: **Pure Mathematics, Statistics, and Mechanics**.

In **Pure Mathematics**, you'll study algebra, trigonometry, calculus, and other foundational topics that form the core of mathematical understanding. **Statistics** will involve interpreting and analysing data, probability, and working with statistical distributions. **Mechanics** covers the mathematics of physical systems, including forces, motion, and kinematics.

The QR code will take you to the Edexcel A-Level Maths Specification.

Rebecca Mewse, A*

"My tutors, especially in Maths, were excellent and I recommend balancing work with other activities."

Eden Munemo, A

"I have loved my time studying at the College. MC6 offers a quiet and focused study environment, which has been crucial to my studies this year."

Shayne Jeffrey, A

"The teachers have been brilliant; I wouldn't have been able to do it without them."

You will sit progression exams at the end of the academic year. You sit your final exams at the end of year 2.
